

**Product Overview:**

These behind-the-head stereo earphones are popular with listeners who wear hardhats or are concerned about "headphone hair." The earpieces slip over the ears and wrap around the top of the neck. Joints in the band enable the user to tailor the fit, and fold it up for easy storage. Sound is distributed through both earpieces. Replacement cushions sold separately.

**Highlights:**

- Dual ear output
- Behind-the-Head design allows usage with hard hats and doesn't mess up hair
- Folds flat for convenient storage
- Replaceable ear cushions available (specify LA-167)
- The receiver's antenna is built into the headphone cord

**Includes:**

One (1) LA-170 Behind-the-Head Stereo Headphones
